The Conversion Method of Scores to Grade Point

The conversion is based upon the equivalent of 90-100 for GP 4.0-5.0 (90 is equal to GP4.0, 91 is equal to GP4.1, etc.), 80-89 for GP 3.0-3.9, 70-79 for GP 2.0-2.9, 60-69 for GP 1.0-1.9, 59 and below for GP 0.

If the course is graded, Excellent is equal to GP 4.5, Good is equal to GP 3.5, Average is equal to GP 2.5, Pass is equal to GP 1.5, and Failure is equal to GP 0.

GPA (Grade Point Average) is the quotient of the sum of grade points divided by the total credits.
